Insights 🧐

Top Insights From Dashboard

Around 70–80% of individuals with graduate/professional degrees fall into the **above 50K income group**, compared to only **20–30% in lower education categories**.

Management and professional occupations contribute to **over 60% of the high-income group**, while labor/service roles account for **less than 25%**.

Despite **80%+ of individuals working full-time**, nearly **50–60% of them still fall below the 50K income level**.

Less than **30% of individuals are engaged in high-gain investments**, while the majority (**70%+**) either do not invest or generate low returns.
